

## Datasheet

# Stainless Steel Cleaner

RS Stock number [109-416](#)

### Description:

A water based light duty emulsion cleaner and polish for stainless steel, where it is designed to remove light contamination and stains, and to leave a thin, temporary, glossy protective film. This product does not contain fragrance.

For domestic and industrial applications. This product is also suitable for treating chromium plated and aluminium surfaces.

### Benefits:

Gloss finish.

Non-abrasive, no scratching.

Inert composition, acid / acid free.

Silicone free.

Leaves a thin protective layer to help prevent soil adhesion and to assist subsequent cleaning.

**Physical Properties:**

This is for the polish base except where stated.

Appearance:	Off white emulsion
pH:	N/A
Specific Gravity:	0.920 ± 0.010 at 20 °C
Non Volatiles % m/m:	5 – 10
Active Content % m/m, as supplied:	80 – 90
Viscosity:	Semi viscous liquid
Flammability, as supplied:	Extremely flammable, flash point below -20°C
Composition Data, as supplied:	An aqueous emulsion of a highly refined mineral oil, white spirit, sorbitan esters, and an inorganic anti-corrosion package in butane/isobutane/propane propellant
Service Temperature:	Designed for use at ambient temperatures

**Application Details:**

Shake can thoroughly before use and spray from a distance of 15 to 30cm. Wipe the surface with a clean soft dry cloth, buffing to a clean, shiny finish.

**Availability:**

400 ml Aerosol
